About Advanced Energy United

Advanced Energy United educates, engages, and advocates for policies that allow our member companies to compete to repower our economy with 100% clean energy. We work with leaders of the Federal and state governments as well as regulators of energy markets to achieve this goal. The businesses we represent are lowering consumer costs, creating millions of new jobs, and providing the full range of clean, efficient, and reliable energy and transportation solutions. Today, these businesses have a combined market capitalization in excess of \$3 trillion.
