

# Aurelius Solar

## STATUS:

Operational

## LOCATION:

Aurelius, NY (Cayuga County)

## CONGRESSIONAL DISTRICT:

New York 24th

## TECHNOLOGY(S):

Solar

## RELEVANT TAX PROVISION(S):

- Investment Tax Credit (ITC)
- Energy Communities Adder (EC)
- Transferability

## FAST FACTS:

- Producing 29 megawatts of electricity, this solar farm is the combination of four small-scale adjacent projects. The project provides low-cost electricity to the regional grid and bill credits to thousands of homes and small businesses in the area, helping cut electric bills for subscribers.
- Harnessing transferability, developers were able to unlock greater private capital financing, enabling construction of this project.
- Aurelius Solar was built on remediated land previously contaminated by a power generating facility in the 1960's. As a result, project developers were able to harness the Energy Communities Adder as a result to help support development.

## ADVANCED ENERGY IN NEW YORK BY THE NUMBERS:
