

High Banks Wind

STATUS:

Operational

LOCATION:

Bellevue, KS (Republic County)

CONGRESSIONAL DISTRICT:

Kansas 1st

TECHNOLOGY(S):

Wind

RELEVANT TAX PROVISION(S):

- Investment Tax Credit

FAST FACTS:

- High Banks Wind is an operational wind farm developed by NextEra Energy. High Banks provides over 600-megawatts of power and is the largest single-source of energy in the State of Kansas, according to the University of Kansas.
- Over 450 construction jobs were created for this project, with an average salary of \$116,701 per employee. In total, the project is expected to create 726 jobs and an annual payment of \$5 million to landowners.
- At full capacity, High Banks will generate enough electricity to power more than 240,000 homes.
